💼 WORK EXPERIENCE

PRESENT

Devops engineer . 1 yrs 5 mos
Banimode . Iran. Tehran . Tehran

JUL 2018

I started my job in Banimode with only two web servers, and our Database server was managed with another company.

After a while, I got Database server and optimized our web server.

Now, We have more than hundreds servers and more than 50 services.

I used CentOS, Debian and Ubuntu server in our servers.

Some of services deployed with Docker.

In a while I used Docker swarm for Mariadb galera.

I used Graylog and ELK stack to manage our application and services logs.

PRESENT

Server administrator and CTO . 4 yrs 1 mos
Damatajhiz . Iran . Tehran

NOV 2015

I started work with Damatajhiz.com in 2015 as remote SysAdmin, and in 2016 January I worked as CTO with Damatajhiz.

Our team had 3 person and grows up to 8 person.

Plesk, Prestashop, Docker, PHP and CentOS 6 was technologies I used in Damatajhiz.

In this time (2019 December) I work remotely with this company.

MAY 2018

Webmaster . 10 mos
Magellan Travel . Iran. Tehran

JUL 2017

It was one of my Part time and remote jobs. I was webmaster of Magellan.

In Magellan our server was Windows server 2012 and we used IIS as web server.

I optimized magellan.ir and magelan.org for search engines (SEO).

JAN 2016

PHP Developer and Server Admin . 7 mos
ParsTelecom . Iran . Tehran

JUN 2015

Developing PHP Scripts and Managing Linux Servers

I learned PHP programming before start my job in Parstelecom and learned it as self study.

When I start my job in the Parstelecom my Job was Linux Sysadmin and after about 2 weeks I start chainging PHP scripts as out company needs.

I rewrite some PHP scripts like IOS push notification with Python to find which provide best performance for us.

JAN 2016

Webmaster and Server manager . 1 yrs 5 mos
Lenzbin . Iran. Tehran

AUG 2014

I deployed a video sharing site with PHPMelody, and I edit most of this CMS pages.

For manage user activities I develop a python script that allow to manage videos and users from telegram.

To get report of log I wrote a bash script that sent some critical reports to my email and telegram.

JUN 2015

Server Admin . 6 mos

Fanavari Parsian . Iran . Tehran

DEC 2014

Manage Dedicated servers,VPS server and Web hosting

NOV 2014

IDC Technician . 1 yrs 5 mos

Afranet . Iran. Tehran . Tehran

JUN 2013

It's a revolution in my job, because I learned some new technologies like VMWare virtualization, Plesk control panel, Smartermail and some monitoring system.

For some R&Ds, I configured HP servers and Clustered that with vCenter.

I used Windows server 2008 in smarter mail servers and Centos 6 for mail and DNS servers.

JUN 2013

Technical & Network Admin . 5 yrs 1 mos

Infotech . Iran . Tehran

MAY 2008

When I started working at Infotech, I was Card printer operator.

After some time I was given the hardware repair training of the POS devices And I worked in hardware repair when my training finished.

I also worked as helpdesk.

I worked with two physical servers that had windows server 2003 and we had about hundred clients with Windows XP.

♦ EDUCATION

Pars Electrics . Iran, Tehran
Associate 2011 - 2014
Computer Hardware
